

Option One

Internet AccessSM

“Dedicated to Quality & Affordable High-Speed Internet Access for Everyone!”

The Simplest Kind Of High-Speed Internet Access Available!

Option One Internet AccessSM

Including High-Speed Internet Access, e-mail, spam filtering, modem, rate assurance and no annual contracts all for one low price!

Buying Internet Access has become a real Circus Act!

Many competitors have up to ten different service offerings with just as many pricing choices. Doesn't this become confusing? What speed do you really need? Who knows? Faster links always cost more money! And what about those *teaser rates*? \$19.95 per month now and \$44.95 and higher later! This is a real shock when you get the bill! Customers constantly complain of underrated introductory rates that can double at the end of the promotion. Tired of all the choices...the high costs? Most people just want fast Internet access at reasonable prices without the *circus acts*! You asked! **And we deliver!**

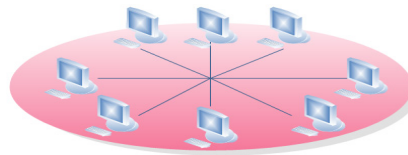

Option One Internet AccessSM provides the simplest choice for High-Speed Internet Access in the business. We simply provide the highest speed we have available in your area of service for one low price. **No Circus Acts! No-nonsense pricing!**

Additionally, the technology used by the cable companies' pile on each subscriber on a single link. And if you are toward the back of the line or use the service when everyone else is too, you never get the speed you are paying for. It's like a *party line* for data transport. *Who wants that?*

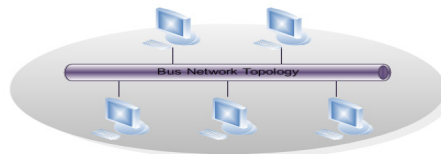

Option One Internet AccessSM uses proven DSL technology and each of our customers gets their very own link. WOW! What a great idea. So the speed that you buy, is the speed you will get. And since we provide the highest speed we have available in your area of service for one low price, you can count on a service that is always on, always available and always reliable. For more information and to simplify your choice for high-speed Internet Access, please call 877-450-3500 and ask about our email addresses, spam filtering and modem included with the service. Plus rate assurance and no annual contracts all make a winning combination. **Why go anywhere else?**

**Option One
Internet Access**

Option One Internet Access uses Digital Subscriber Loop as its transport medium with everyone getting their own link to our Central Office (CO). Super High-Speed links connect it all from our CO to the Internet. Clear voice conversations with error free high-speed data transfer. **Very Nice!**

**The Cable
Guy**

With Cable Internet from the Cable Guys, everyone piles on the same line. Bandwidth HOGS like gaming will slow the link for everyone else! The speeds can actually fluctuate by the time of day and number of users on at any one time. And if you have Voice over the Internet the sound quality can be unpredictable!

Get your **Option One Internet AccessSM** from Alphacomm.net by calling 877-450-3500. We'll get you online right now! Ask about our modem, e-mail addresses and spam filtering included with the service, combined with rate assurance and no annual contracts. How does it get any better?
